WHEELS OF BABYLON

1. VIOLENCE, ACT 5

Hammer in his hand
He breaks the human skulls
Decapitation follows
Finally he drinks all their blood

Brutal violence!
Fucking yes!
Oh, sweet violence!

2. WHEELS

Those walls seem like they're falling over
But yet you keep on coming back

Back in routine again
Always the same old, always the same
The Babylon's wheels are gonna make you break

So quit, you fucking piece of shit
And make your life worth living here

3. VÄÄJÄÄMÄTTÖMÄÄN ITSEMURHAAN

Roskaruokaa ja pillereitä
Se länsimainen maailmankuva
Hyviävointi on illuusio
Työtä tee tai kuole pois

Minä hetkenä kaikki meni pieleen?
Missä vaiheessa sairastuimme?
Ahneuteen, rahan valtaan
Materiaan, tuotemerkkiin

4. NOY TOO HARD

Six strings and an ugly face
Ten more with so much hair
The fucking drums pound through your head
So watch the show

It's not too hard
Just making noise and having fun
That's where you start
It's not too hard
Distorted riffs and primal rage
D-beat or blast

5. START BREATHING

Trusting in faith
In God or in money
Needless to say
They are drunk with their power
Endless crusades
In the name of the saviour
And what did they gain?
A lifetime in chains

Afraid of all decisions you'd have to make yourself
Afraid to have the normal responsibilities
Afraid of life
Afraid of death
Afraid of everything

Is it really the fear of God or just the fear to breathe on your own?
'Gos we start breathing when we stop believing
We start breathing when we stop believing
We start breathing when we stop believing

6. BREAK AWAY

Dark desert
Heavy tripping
Need to get away
From the chains of life

When the life is pain for me
When the life is pain for you
Let us break away
Away from the rat-race

Train moving
Lucid dreaming
Going somewhere far
Where we can be free

7. VALHEET

Pitä sydämesi kiinni
Älä päästä sanojasi saastuttamaan
Sulje petollinen suusi
Siellä valheet odottavat hetkeään

Sinun kauttasi opin kuinka vihataan
Sinun kauttasi opin kuinka kaadutaan

Etkö muista kuinka pyysin
Älä luule olevasi oikeassa
Nyt puren hampaitani yhteen
Käsi nyrkkiin puristuu ja huudan taas

En bestä luonnella paskaa
Jota suustasi löyhkäten valuu taas

8. DO IT AGAIN

Have you done as I said?
And how many have you raped?
Have you pleased your God again?

Victims of your molestation will never be the same
But church and state will understand
Come on and do it again!

You say it's not your fault
It is me who commands your cock
Which you use to ruin their lives

You should do it
Church and state will understand
You should do it

We really need another rape
I think you should violate another human body
Yes I think you should do it
Yes I think you should do it
Yes I think you should violate another sacred human body
